The biggest financial concern for millions of American families is paying for college. One of the new FAFSA rules will exacerbate this problem for any families that will have multiple children in college at the same time. Currently, families receive a discount if they have multiple children in college at once. The new FAFSA rules will eliminate this discount and will effectively DOUBLE the amount families with multiple children will be expected to pay for college. Most families already struggle with affording college; this new rule will be a crushing blow for the MILLIONS of families that will be negatively impacted each year.
